Wolfeboro, N.H. 03894
Tel 603-569-2622

(617) 969-6077

Dear Tim,

You can imagine my delight when I heard of your release and then received your letter. Presumably it was something of a blow to your ego to learn that (acc. to reports) your bail was dropped from \$5,000,000 to a paltry \$5,000, but I am sure that freedom is worth it.

I was also glad to learn that you are expected to kick off the coming AHP meeting at Princeton on August 28 with an address - which seems to me very appropriate. I expect to be there along with Ruth, to hear about your most recent ideas. I had hoped that my friend Salvador Roquet, M.D. of Mexico would be there since he has been wanting to meet you now for several years. Doubtless you know that professionally jealous Mexicans had him thrown into jail for 5 months while he proved his innocence. A group of us here and on the West Coast have quietly scheduled him for workshops in which he has simulated his treatment modality in which he has combined Freudian wisdom with that of Mexican Indian shamans. It is the most powerful and effective therapy (85% of his patients helped with no apparent casualties) I know anything about and even without psychedelics it is effective for many. But some have ingested on their own responsibility. George Litwin and bride-to-be attended the last session held in Vermont. Since he sets people up for a period of controlled insanity he illustrates your generalization that it is necessary to "go out of one's mind to use your head." He is a lovely, gentle person of 56 with a sense of humor and remarkable intuition. Harvey Cox thinks he may be as well known as Freud in coming years, with which opinion nearly all psychotherapists who have taken his treatment that I know of have in general agreed - that is unless the authorities are able to throttle him, as they are trying to do. But even if he doesn't get to AHP I am sure that the two of you will meet some day.

I am glad to hear of the lecture program. My friends at Interface here in Newton may be in touch with you relative to sponsoring a lecture and workshop here in the Boston area, which I hope will come through. We are in process of forming the "Robt. S. Hartman Association" for the purpose of sponsoring visits of persons like yourself and Roquet. He is to give simulated sessions (three) in this area between Sept. 29-Oct. 6, and possibly visit Calif. at the same time. I think he is to be in the SF area within the next few days. My friend Marty Kent, 2575 Virginia St. Berkely 94709, would be apt to know if and when he might be in the area.

Glad to hear of the interest in Los Alamos and hope that develops also. Love to you and Joanna until I see you,

Sincerely,

Walter
